WEDDING TAPING

Let FlipBox Productions experts videotape and edit your wedding using professional equipment and video editing technology for affordable prices. You can relive and preserve the rehearsals, preparation, ceremony, and reception and share it with far away friends or family members. Just relax, enjoy the wedding, and let us preserve your memories.

WEDDING VIDEOS CAN INCLUDE:

- **Videographers/ Cameras:** Two professional videographers will use professional digital video cameras to video tape your wedding ceremony, reception, or more.
- **Wedding Day Highlights:** A 6-12 minute video that uses video clips with audio to tell your wedding day story. This video uses music and special moments to dramatically capture your wedding. Compresses your special day into a cinematic show. Good to show friends and family when they don't have time to watch the whole video
- **Video Montage:** Video montages are the perfect way to relive, preserve, or display personal photos. Our experts take your photos and/or videos, animate them and time them to your favorite songs, tailor the video to fit your needs and personality, and put it on a customized DVD. Video clips can also be incorporated into video montages for additional fees.
- **Video Interviews:** Interviews from family and friends who attend the wedding. Video interviews add a more personal and reflective tone to the video and are the perfect way to allow people to tell favorite memories and describe what the bride and groom mean to them!
- **Love Story:** A video interview in which the couple describes how they met and answers questions about their future husband/wife. Perfect to show at receptions!
